

Year 1 online Topic learning

18th January 2021

Below are the topic tasks that we have set for the week. We hope that you enjoy them!

Task 1

Open the PowerPoint, 'Comparing Toys' and read through it with a grown up. It recaps everything that we have learnt so far.

Task 2

Using what you know from the PowerPoint and last week's work (where you drew and labelled old and new toys) you now need to sort a set of toys into 'Old' or 'New'. If you'd like a trickier task, you can complete a Venn diagram instead. Using the Venn diagram means you have the option to put some toys 'in the middle' - these are toys that have been around a long time but we still play with today. As always, the process is more important than the end result - the real learning is in the talking and decision making rather than where you finally decide to put it.

Task 3

Write some sentences to explain the similarities and differences between old toys and new toys. Think about their materials, how they move and are powered, how much they cost to make, etc. Use as many of our topic words as you can. Remember these are **material**, **time** and **toy** words.

WEEKLY ASSIGNMENT:

WEEKLY ASSIGNMENT: Please upload a small selection of photos (Max 5) to show your learning from this week. As work is marked for accuracy as part of each online lesson, feedback from school will be based on the strategies used.

Work needs to be submitted up until 4pm on Sunday 24th January 2021.

Work will be responded to by a teacher throughout the course of the next week.
