

16<sup>th</sup> November

Geography deep learning day.

Today the children went on a walk to Waterloooville Town centre. They were told they had to follow the route on the map and find the key features, these included: The Library, Costa, a Post Office, a Bus Stop, Church and a Police Station! The children looked carefully at the map and even before we got to some of the key places they could tell us what was coming next!

When they returned to school they had a walk round our school grounds and pointed out some of the key features that are in our school, such as the field, the lunch hall, a library and Mr Cunningham's office. The children were then told that they had to draw a map for some teachers that would be visiting our school in the coming weeks to help them find their way around. The children were keen to draw a map, labelling the key features and even adding colour!
