

TUESDAY 2.1.21 - MATHS LEARNING

TUESDAY ARITHMETIC – Click on the link in the assignment.

MAIN LESSON – Decimal equivalents of fractions

This lesson builds on yesterday, where you compared fractions and decimals. Today you will learn how to divide say 3 by 8 using the bus stop method, giving your answer with a decimal point.

MAIN TASKS – CLICK ON THE LINK IN THE ASSIGNMENT IF YOU WANT TO PRINT THESE OFF.

SUPPORT LESSON – Recognising decimal tenths

This is a step back from yesterday's lesson which I think was a bit much too soon. This should make more sense.
